PREASSEMBLY

Insert rubber spacer into specified locations.
12.9" iPad Pro
11" iPad Pro - Place in location 2
10.9" iPad Air - Place in location 2
10.9" iPad (10th Gen) - Place in location 2
10.5" iPad Pro - Place in location 2
10.2" iPad (9th Gen) - Place in location 1

Route cabling through access holes
in the back plate.

* If REPEL is installed on 10.2"
iPad don't use spacers.

1.   PLACE TABLET INTO FACE PLATE

Ensure that PREASSEMBLY steps have been followed concerning the rubber spacers.

2.   PLACE BACKPLATE OVER THE FACEPLATE AND INSERT SCREWS

Refer to base mounting instructions before proceeding with this step if you are using a VESA mounted base.
